

## PRODUCT INFORMATION SHEET

### TRIENT transparent safety glasses uni

#### Product description

Glasses intended for individual eye protection against mechanical hazards. Compliant with EN 166: 2001. The lenses of glasses are made of transparent profiled polycarbonate with additional shield, so that they provide side eye and temples protection. The frame and adjustable temples are made of black nylon, which gives the glasses a fashionable look.

The glasses protect against low energy chipping of solids produced during grinding, drilling, cutting, sawing and crushing. They are perfect for typical works in industry and services, construction, in the workshops, forestry, in technical or municipal works.

The product can be used with corrective glasses. They are not suitable for use during welding.
